## What is Remote Guarding?

Remote guarding is a guard replacement solution. It was created to overcome the frustrations with on-site guards. "... Drawing from my past experience, full-time guards on-site are ineffective at securing a site..... Radius already has the infrastructure of an alarm company. The Rosie (Remote Guarding) technology was developed with construction sites in mind..." (Jackson Jue- Ast.Project Manager - Icon West)

Remote Guarding is designed to:

- \* Prevent future crime
- \* Apprehend criminals
- \* Reduce theft & loss of assets
- \* Eliminate false alarms
- \* Avoid production downtime
- \* Avoid insurance claims
- \* Provide faster police response
- \* View site 24/7 on your smartphone

## Reduce your security costs by a minimum of 40%

Remote Guarding is the most effective security solution for construction developers looking to protect their outdoor assets.

Construction Site Security - Rosie Technology

It protects against:

- \* Site break-ins
- \* Site vandalism
- \* Employee theft
- \* Metals - copperwire theft
- \* Damage to construction equipment
